Good of the Order:

New Challenge coins have come out for the state. We did not get any for our lodge due to having so many of the "6" Challenge Coins. We did get some to give away during the raffle 50/50 drawing. We have QR Code cards for the State 50/50 raffle. You can pick which lodge you are supporting (ie Lodge 12) and the lodge will get \$1.50 per ticket. The cards are located on the head E-Board table. Raffle will be held/drawn on November 15 at the Berkley Lodge Car Show.

President Brother Canterbury spoke with Brother Wells about his fundraising pick-ups. Angelo's Steak House has been contacted by the fundraising company and funds were solicited from him 3 times since May. Contacted him and told him he was named "Man of The Year for 2025" by our lodge. Brother President Canterbury contacted the Fundraising Company and informed them NOT to contact him again in 2025. We would like to get Cops and Kids Program back up and running. Brother SAA Wells would like for us to start holding our meetings at Angelos so that we can support his business. President Canterbury will look into holding our meetings there.

Chaplain Martin would like for our lodge to contact the State Lodge to contact the NC State Lodge to get the contact information for Deputy Shipman's home lodge so we can make a substantial monetary donation. Brother President Canterbury discussed the caps in place but will make contact with them to see what we can do. Chaplain Martin informed the lodge that the Guns and Hoses Baseball tournament was to be held this weekend but cancelled.

50/50: \$40 member \$40 building fund

- There is only \$41 in the tips so we will have to take \$9 out of the 50/50 to make the \$50. \$31 will go to the building fund \$40 to the winner

Ticket #5626 won the 50/50

We will also raffle off some of the Conference Challenge Coins:

Ticket # 5625

Ticket # 5662

IT Committee Report
September 2025

The IT committee has been working on getting as many of the missing emails from the Roster that we were sent in July added to the data and GoDaddy so that more members get the eblast emails that are sent.

We have identified several problem areas, with one example being GoDaddy's email addresses not matching the Roster, such as donadller@hotmail on one list and donadler@gmail on another. Other issues we have identified are the lack of any email, which we are trying to resolve. One way of getting possible email addresses was to look at the dues list for the dues collected in 2024 for 2025 for possible email addresses not included in the roster. While we realize the dues list may not be a complete list, as it was a working list for internal information, it did provide some additional emails we could add.

We did note that comparing lists produced a number of issues. There are 31 names that are on the GoDaddy email list that are NOT on the Roster. To compound the issue, the vast majority of those names appear on the Dues list. I sent the list to Brother Canterbury so that he could further research if those on the GoDaddy list are actual members, be they full, associate or honorary, so we can take any action to clear up the GoDaddy mailing list. We need in this instance to know if the people on the list are indeed members that need to be added to the roster, or no longer members that can be dropped from the GoDaddy list.

We will work to resolve the conflicting email addresses I mentioned earlier and advise the Board of any changes.

We have many serious issues with GoDaddy that are obviously making resolving some of our remaining problems difficult if not nearly impossible to address in any reasonable manner.

SCFOP Lodge 12 IT Committee Report, September 2025

Since the August Meeting, the IT Committee has been intensively involved with reviewing available information from multiple sources and updating the email list maintained through GoDaddy, which is used to send announcements and other information to the Lodge's Members. While we have made significant progress in updating the records to correct inaccurate emails, and to add email addresses and telephone numbers where they were previously missing, the Lodge remains in non compliance with South Carolina Law, which requires the Lodge to provide certain Notices and other information to ALL Members.

The IT Committee found that there is a significant delay in receiving information to update the email subscriber list, and new members are often not receiving the next meeting Announcement because of this delay. The delay in providing the information to the IT Committee appears to be related to delays in National informing the Lodge of Member numbers assigned to the new Members. That is information the Committee does not need in order to update the email subscriber list. We'd like to request that the names and other identifying information including telephone numbers and email addresses for new Members be provided to the IT Committee within 5 days of the Meeting, so that the Committee can update the email subscriber list and include new members on blast emails and other messages.

As reported at the several prior Meetings, The IT Committee requested President Canterbury to review the Member Benefits listed on the website and to confirm that this information is accurate. When the information is received from President Canterbury, the IT Committee can move forward to complete this assignment.

South Carolina Law requires the Lodge to notify ALL Members of Meetings and matters on which they are entitled to vote. Three months ago, as part of its ongoing review of GoDaddy administrative information, the Committee discovered a significant technical issue with the email list; GoDaddy's software was not properly adding new Member contact information to the list when information was provided. After hours of discussion, this issue was believed to have been resolved. Unfortunately the committee has discovered that the situation has NOT been resolved. IT Committee Member Don Nadler will report more detailed information.

In general, the issues with GoDaddy and its services related to our email subscriber list and announcements sent by the Lodge have not improved; they not only continue, but they are constantly changing and evolving.

It continues to be my opinion, and I believe the other IT Committee Members agree, that GoDaddy is not providing reliable, professional technical support services to the Lodge with respect to the Lodge website and what GoDaddy calls "Email Marketing" Services.

The IT Committee has spent most of its time and energy this month trying once again to reconcile information from GoDaddy with information from the Lodge's records. At the same time, the Committee is collecting and documenting the issues with GoDaddy in order to be able

to make accurate, fact based recommendations regarding the Lodge's website, email system, and related information collection and processing needs.

I reported last month that the IT Committee had not received all Minutes of Meeting for the current year. Recording Secretary Pike took issue with this report. I took her objections seriously and re-reviewed the IT Committee's files. While I am able to confirm that the Committee DID receive a number of Meeting Minutes, there was no record of Meeting Minutes for March and May 2025, and I request that Recording Secretary Pike forward those Minutes to the IT Committee at her earliest convenience.

The IT Committee needs the cooperation and assistance of the E-Board in order to do its job for the Lodge. We are also sensitive to the fact that the E-Board Members have many demands on their time (as do we) and we try not to make unnecessary requests of them.
